

KJS/EMD/EC/2017/485

Date: 11.01.2018

To,

The Regional Director,
Regional Officer
Ministry of Environment, forest & Climate Change
Kendriya Paryavaran Bhawan.Link Road no.3
E-5 Ravishanker Nagar
Bhopal, (M.P.)

Sub: Submission of Environmental Clearance Compliance status Report for Barhiya Lime Stone Mine (7.102 Hec).

Ref: Environmental Clearance Letter No. 5615/EPCCO-SEIAA/15, Dated: 16th September 2015.

Sir,

We are hereby submitting the Environment Compliance status Report for the period July 2017 to December 2017 Barhiya Lime Stone Mine (7.102 Hec)

Thanking you,
Your's faithfully

For KJS Cement Ltd,

D. Roy
VP (Mines)

Encl: Environmental Compliance status Report with all annexure.

BARAHIA LIME STONE MINE(7.102 Ha.)

**ENVIRONMENTAL CLEARANCE HALF YEARLY COMPLIANCE REPORT FOR
THE PERIOD OF JULY 2017 TO DECEMBER 2017**

Compliance report for period July2017 to December 2017 of the condition stipulated in the environmental Clearance granted by SEIAA, MP, vide letter. No. 5615/ Dated16.09.2015.

Specific Condition:-

Sr.No.	Conditions	Compliance
1.	PP in his letter date 21.04.2015 has committed to leave 300 m. from the village, national highway and school. Before taking up the mining activity proper demarcation in the presence of mining officer satna district revenue officials and public representation of the conceded village should be done A panchnama should be prepared at the site 300 m. should be marked from the outer periphery of the village and there is an overlap on the proposed mining site then at buffer should be left for plantation similarly 350 m. should be marked from the edge of should mark boundaries of the working site taking note of the above observation	Mining activities will be done beyond 300 m. from the village National Highway and School. Guidelines mentioned in the EC are being followed. Presently mining work is not in progress.
2.	A green belt of minimum 22 m. should be left to plant local species like neem, Aam Karang,Peepal, barged Arjun jamun Amla sisham etc.the plants should be three year old with proper maintenance/protection any area beyond 22 m. if accrues from the above demarcation should also be included as part of the green belt.	Plantation work will be done as per guidelines all around the periphery of mines, both sides of haulage roads & in open area of mines. Guide lines of SEIAA, MPPCB & local forest office are being followed.
3.	The PP shall adopt scientific/controlled blasting method using NONEL and millisecond delay- detonator for initiation.	Blasting method using NONEL and millisecond delay -detonator for initiation will be adopted. Controlled blasting practice will be done. Rock breaker will be used to eliminate secondary drilling & blasting. Presently mining work is not in progress.

4.	To keep/maintain vibration within the permissible limit regular monitoring will be done after each & every blast.	Controlled blasting & regular vibration monitoring practice are being adopted.
5.	The PP shall develop a permanent water sprinkling system to suppress the dust emission.	The entire haulage road is being kept wet by water sprinkling on it through water tankers. Wet drilling method is being adopted to avoid fugitive emission during drilling. Plantation along the roads, all along the periphery of mines & in open area will be done.
6.	A landscape planning should be done by engaging a landscape planner to beautify the water body and develop aesthetic sense after mining.	Is being complied.
7.	A separate Environmental cell should be formed to monitor and keep record of air water noise pollution and all Environmental management activities.	There is already a well setup Environmental Management Cell, same EMD cell is looking after environmental compliance of this mine also.
8.	A separate cost of Rs. 10.00 lakh should be allocated for the first year plantain apart from the cost shown in the Environmental management plantation activities.	Agreed
9.	The PP shall contribute for the development of toilets in the nearby village in consultation with village panchayat PP should have a survey done in coordination about the demand if toilets on the basis of the numbers of house hold taking sanitation facilities, make contribution to have the village 100% total sanitation.	Agreed. All efforts are being taken.
10.	A minimum of 22 m. wide thick green belt shall be development al around the promises.	Agreed
11.	The entire plantain should be taken up in the first year itself along with the mining with plantain of local species of at lost 03 year old saplings with casualty replacement.	Is being complied
12.	Pond deepening shall be taken up through de - sludging of the same.	Agreed
13.	Hydro - geological studies shall be done	Mining will be carried out above

	every three year.	ground water level and no intersection of water table will take place. Hydro-geological findings of the mine area will be reviewed and in case adverse effect observed on the ground water regime necessary remedial measures will be initiated and brought to the notice of board
14.	Satellite imagery every three year.	Agreed
15	PP will take adequate precaution so as not to cause any damage to the flora and fauna during mining operations.	Agreed. All efforts are being taken.

Standard Condition:-

1.	Any addition of the mining area, change of khasra numbers enhancement of capacity change in mining technology, modernization and scope if working shall again require prior environmental clearance as per EIA notification, 2006.	Agreed
2.	All activities / meditative measures proposed by PP in Environmental impact assessment and approved by SEAC must be ensured.	Agreed
3.	All activities / meditative measures proposed by PP in Environmental Management plant and approved by SEAC must be ensured.	Agreed
4.	All parameter listed in environmental monitoring plan approved by SEAC must be monitored at approved location and frequencies.	All parameters listed in environment monitoring plan are being monitored at approved locations & frequencies.
5.	Blast vibration study shall be conducted and submitted to the regional office MOEF, GOI, Bhopal and MPPCB within six months the study shall also provide measures for prevention of blasting associated impact on nearby houses and agricultural fields.	Blast vibrations study has been conducted. Report has been sent with previous compliance report.
6.	Controlled blasting techniques with sequential drilling shall be adopted the	Controlled blasting will be done. Blasting will be carried out in the day

	blasting shall be carried out in the day time only.	time only.
7.	slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by Indian bureau of mines	Slope & ultimate pit limit are being maintained as per approved mining scheme.
8.	A final mine closer plan along with detail of corpus fund shall be submitted to the regional office MOEF, GOI, Bhopal and MP PCB within 5 years in advance of final mine closer for approval.	Agreed.
9.	No change in the calendar plan including excavation quantum of mineral and waste shall be made.	Agreed.
10.	Mining will be carried out as per the approved mining plan in case of any violation of mining plan the environmental given by SEIAA Will stand cancelled.	Agreed.
11.	Adequate buffer zone shall be maintained between two consecutive mineral bearing deposits.	Agreed.
12.	The transportation of the minerals extracted from the mining area shall be limited to day hours time only.	The transportation of the minerals extracted from the mining area will be limited to day hours' time only.
13.	Maintenance of nearby local roads through which transportation of minerals are undertaking shall be carried out by the company regularly at its own expenses the roads shall be black topped.	Agreed
14.	Measures for prevention and control of soil erosion and management of at silt shall be undertaking protection of dumps against erosion shall be carried out with geo textile matting or other suitable material and thick plantation of native trees and shrubs shall be carried out at the dumps slopes. Dumps shall be protected by retaining walls.	Top soil will be stored at earmarked site & it will be used for land reclamation & Plantation. OB generated is being also kept at dump site. The height & slope of dump are being kept as per guide lines of IBM & MoEF & CC. After reclamation plantation will be done.
15.	Trenches/garland drains shall be constructed at foot of dumps and coco filters installed at regular intervals to arrest silt from being carried to water bodies. Adequate number of check dams	Proper garland drain & trenches have been provided & drain will be cleaned on regular interval. Guidelines of SEIAA/IBM are being followed. De-silting will be carried out at regular

	and gully plugs shall be constructed across seasonal/perennial nallah, if any flowing through the ML area and silt arrested. De-silting at regular intervals shall be carried out.	interval.
16.	The project proponent will ensure necessary protection measures around the mine pit waste dumps and garland drain.	All the protection measures are being adopted around the mine pit, waste dumps and garland drain.
17.	Top soil/ soiled waste shall be stacked properly with proper slopes and adequate safeguards and shall be utilized for back filling (wherever applicable) for reclamation and rehabilitation of mined out area top. soil shall be separately stacked for utilization later for reclamation and shall not be stacked along with over burden.	Top soil will be stacked at earmarked section with proper slopes. This soil will be utilized for reclamation of mined out area. Presently no mining activities are going on.
18.	Over burden (OB) shall be stacked at earmarked dump site (S) Only and shall not be kept active for long period the maximum height of the dump shall not exceed 20 m. each stage shall preferably be of maximum 10 m. and overall slope of the dump shall not exceed 35 m. the OB dump shall be backfilled and shall be scientifically vegetated with suitable native species to prevent erosion & surface run off.	Agreed.
19.	Minimum 1000 plants shall be planted in one year and 5000 plants shall be planted in first five years.	Agreed, plantation practice will be adopted as per guidelines.
20.	Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the regional office, MOEF, GoI, Bhopal and MP PCB on six monthly basis.	Will be complied.
21.	By the end of the lease period 33% of the area should be brought under plantation.	Plantation will be carried out As per Guide line & more than 33% area will be brought under plantation.
22.	Green belt development shall be carried out considering CPCB guidelines including selection of plant species and	Mass plantation work will be carried out in safety zone, back filled area & reclaimed area, along the roads &

	<p>the consultation with the local DFO / agriculture deptt. Herbs & shrubs shall also from a part of a forestation program me besides tree plantation. The company shall involve local people for plantation program me detail of year wise a forestation program me including rehabilitation of mined out area shall be submitted to the regional office. MOEF, GoI, Bhopal and MP PCB every year.</p>	<p>around the water body in consultation with DFO / agriculture dep't, herbs & shrubs will be also from a part of a forestation.</p> <p>All necessary report are submitted to regional office, MoEF, GoI, Bhopal and MPPCB yearly.</p>
23	<p>Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation of minerals and other shall have valid permissions as prescribed under central motor vehicle rules 1989 and its amendments the vehicles transporting minerals shall be covered with a tarpaulin or the suitable enclosures so that no dust particles / fine matters escape during the course of transportation no overloading of minerals for transportation shall be committed the trucks transporting minerals shall not pass through wild life sanctuary , if any in the study area.</p>	<p>Vehicular emission will be kept under control condition .Proper and regular maintenance of vehicular will be done. The mineral dispatched truck will be covered by tarpaulin. No over loading will be done.</p> <p>There is no wild life sanctuary in study area.</p>
24	<p>Four ambient air quality monitoring station shall be established in the core zone as well as in the buffer zone for RSPM, SPM, SO2, NO2 Monitoring location of the station should be decided based on the meteorological date topographical feature and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken consultation with the state pollution control board the monitored date for criteria pollutants shall be regularly up-loaded displayed on the company website.</p>	<p>Four ambient air quality-monitoring station in core zone and buffer zone is being established & PM 10, PM2.5, SO2 &NOx are monitored as per guidelines of SPCB.</p> <p>All the monitoring report have been sent to Regional office, Satna and the State Pollution Control Board MoEF, Bhopal.</p>
25.	<p>Date on ambient air quality (RPM, SPM, SO2, NO2) should be regularly submitted to the regional office MOEF, GoI Bhopal and the state pollution control board / central pollution control board ones in</p>	<p>The Ambient air quality is being monitored. All the monitoring report are sent to Regional office, Satna, Bhopal and the State Pollution Control Board.</p>

	six months.	Annexure- I,II,III,IV
26.	Ambient air quality at the boundary of the mine premises shall confirm to the norms prescribed in MOEF notification no. GRS/826(E) date 16.11.2009.	Ambient air quality monitoring at the boundary of the mine premises is being carried out. AAQM will confirm the norms prescribed in MoEF.
27.	Fugitive dust emission from all the sources shall be controlled water spraying arrangement on haul roads loading unloading and the transfer point shall be provided and properly maintained the dust emission shall be monitored regularly as per norms and records to be submitted to the regional office MOEF, GoI, Bhopal and MP PCB regularly.	Water spraying arrangement has provided at all sources of dust emission at transfer points. Regular monitoring will be done as per prescribed norms. Monitoring report are sent to Regional officer, MoEF and the State Pollution Control Board.
28.	Measures shall taken for control of noise levels below 75 DBA in the work environment workers engaged in operation of HMM etc. shall be provided with air plugs / muffs and health records of the workers shall be maintained.	All the mines machinery will be properly operated & maintained. Plantation will be done all around the periphery of mines. Noise level is kept with the norms.
29.	Rain water harvesting shall be undertaken to recharge the ground water source status of implementation shall be submitted to the regional office. MOEF, GoI Bhopal and MP PCB within six months and thereafter every year from the next consequent year.	Will be complied.
30.	Regular monitoring of ground and surface water sources for level and quality shall be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation the monitoring shall be carried out for times in a year i.e. pre-monsoon (April-may) monsoon (august) post-monsoon (November) and winter (January) and the data thus collated shall be regularly sent to regional office MOEF, GoI, Bhopal, MP PCB central ground water authority and regional director, central ground water board.	Monitoring of ground water will be carried out by establishing a network of existing wells. Data collected will be sent to the regional office, MoEFGoI, Bhopal. MPPC, Central Ground water Authority and Regional Director, Central Ground Water Board.
31.	The waste water from the mine if any	We are having centralized workshop

	<p>shall be treated to conform to the standards prescribed under GSR 422(E) Dated 19 May 1993 and 31 December 1993 or as amended from time to time the oil and grease trap shall be installed for the effluents generated from the workshop if any before discharging into the natural stream the discharged water from the tailing dame if any shall be regularly monitored and report submitted to the regional office ministry of environment & forests GoI, Bhopal control board and the state pollution control board.</p>	<p>for maintenance, cleaning and washing of mines machinery hence oil & grease trap has already been provided. There is no waste water generation from mines.</p>
32.	<p>Hydro- geological study of the area shall be reviewed by the project proponent annually in case adverse effect on ground water quality and quantity is observed mining shall be stopped and resumed only after mitigating steps to contain any adverse impact on ground water is implemented.</p>	<p>Mine will be carried out above ground water level and no intersection of water table will take place. However all due care will be taken to prevent the adverse impact on ground water.</p>
33.	<p>Occupational health check up for the workers including identification of work related health hazards training on malaria eradication HIV and health effect on exposure to mineral dust etc. shall be carried out periodic monitoring for exposure to respirable mineral dust on the workers shall be conducted and records maintained including health records of the workers Awareness program for worker on impact of mining on their health and precautionary measure like use of personal equipments etc. shall be carried out periodically review of impact if various health measures shall be conducted followed by follow up action whenever required it should be made available for inspection whenever asked necessary funds for this also should be earmarked.</p>	<p>Occupational health surveillance program of workers is being already carried out & same will be done to workers of this mine also. Regularly medical checkup is carried out by Medical officers. Time to time medical checkup camp organized for employee, workers and nearby villagers. Health related training and awareness programme organized for workers. The CSR department is very conscious about Occupational health for workers.</p>
34.	<p>Project proponent shall ensure appropriate arrangement for shelter and drinking water for the mine workers.</p>	<p>Drinking water and shelter arrangement will be provided at mine site.</p>

35.	Persons working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.	Protective respiratory devices will be provided to the workers engaged in mining activities and adequate information on safety and health aspects is being addressed time to time.
36.	Commitment towards CSR has to be followed strictly.	KJS Cement Limited is already engaged in CSR activities. These activities will be implemented for this mine also as per guidelines. We are already having a CSR department who will look after all CSR activities systematically & CSR report is submitted regularly.
37.	Special measures shall be adopted to prevent the nearby settlements from the impacts of mining activities.	Measures will be taken to prevent the nearby settlements from impact of mining activities.
38.	The project proponent shall inform regional office, MOEF, GoI, Bhopal and MP PCB Regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Agreed.
39.	The necessary fund as per mandate shall kept for environmental protective measures which should be kept in separate account and shall not be diverted of other purpose year wise expenditure shall be reported to the regional office, MOEF, GoI, Bhopal and MP PCB.	Agreed.
40.	The regional office, MOEF GoI, Bhopal and MP PCB shall monitor compliance of the stipulate conditions A complete set of documents including environment impact assessment report environmental management plan public hearing and other relevant document should be available.	All the said documents will be provided to Regional office, MoEF, GoI Bhopal and MPPCB.
41.	A copy of the environment clearance shall be submitted by the project Proponent to the Heads of the Local Bodies, Panchayat	Environment clearance already submitted to the Heads of the Local Bodies, Panchayat and Municipal

	and Municipal Bodies, as applicable in addition to the relevant officer of the Government who in turn has to display the same for 30 days from the date of receipt	Bodies,
42.	The project proponent shall advertise at least in two local newspapers widely circulated one of which shall be in the vernacular language of the locality concerned within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the state pollution control board and also at web site of the level environment impact assessment authority (SEIAA) website at www.inpseiaa.nic.in and a copy of the same shall be forwarded to the regional office MOEF, GoI, Bhopal.	Complied.
43	The project proponent has to strictly follow direction/guideline issued by the MOEF, GoI, CPCB and other government agencies from time to time.	Agreed.
44	Action plan with respect to suggestion/improvement and recommendation agreed during public hearing consultation shall be submitted to the regional office, MOEF, GoI, Bhopal, MP PCB and to the competent authority of the state government within six months.	Will be complied.
45	The project proponent has to submit half yearly compliance report of the stipulated prior environmental clearance terms and condition in hard and soft copy to the regulatory Authority on 1 June and 1 December of each calendar year.	Is being complied.
46	The SEIAA of M.P. reserves the right to add additional safeguard measures subsequently, if found necessary and to take action including revoking of the environment clearance under the	Agreed

	provisions of the environmental (protection) Act.1986. to ensure effective implementation of the suggested safeguarded measures in a time bound and satisfactory manner.	
47	These stipulation would be enforced among other under the provisions of water (prevention and control of pollution) Act. 1974. The air (prevention control of pollution) Act, 1981 the environment (prevention)Act, 1986 the public liability (insurance) Act. 1991 and EIA notification. 2006.	Agreed
48	The ministry or any other competent authority may alter/modify the condition or stipulate any further condition in the entrust of environmental protection.	Agreed
49	Concealing factual date of submission of false/fabricated date and failure to comply with any of the condition mentioned above may result in withdrawal of this clearance and attract action under the provision of environment (protection) Act. 1986.	Agreed
50	Any apple against this prior environmental clearance shall lie with the green tribunal, if necessary within a period of 30 days as prescribed under section 16 of the national green tribunal Act.2010.	Agreed.
51	All other statutory clearances such as the approvals for storage of diesel from chief controller of explosives fire department civil aviation department forest conservation Act, 1980 and wildlife (prevention) Act. 1972 etc. shall be obtained as applicable by project proponents from the respective competent authorities.	Agreed.
52	The proponent shall upload the status of compliance to the stipulated EC conditions including results monitored date on their website and shall update the same periodically it shall simultaneously be sent to the regional	The compliance of the stipulated EC conditions, including results of monitored data will be uploaded on the company website and it will also be updated. Copies are sent to the Regional Office of MoEF, the respective

	<p>office of MOEF, the respective zonal office of CPCB and the SPCB the criteria pollutant levels namely SPM, RSPM, SO₂, NO_x (Ambient levels as well as stacks emission) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.</p>	<p>zonal office of CPCB and the SPCB. The criteria pollutant level namely SPM, RSPM, SO₂, NO_x are being monitored.</p>
53	<p>The environmental statement for each financial year ending 31 March in Form -V as is mandated to be submitted by the project proponent to the concerned state pollution control board as prescribed under the environment (protection) rules 1986 as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC condition and shall also be sent to the regional office of MOEF.</p>	<p>Environment statement report for each financial year ending 31st March in Form -V as per the guidance is being submitted it will be put on the website of the company along with the status of compliance of EC conditions.</p>

केजेएस के सीएसआर संबंधी कार्य

1. केजेएस संस्थान ने मैहर स्थित मां शारदा मंदिर की ड्योढ़ी की स्थापना हेतु शारदा मंदिर प्रबंधक कमेटी को 5 लाख रुपये की सहायता की है, जिससे मंदिर की ड्योढ़ी और परिक्रमा मार्ग निर्माणाधीन है।
2. संस्थान की ओर से मां शारदा मंदिर पहाड़ी पर 25 लाख रुपये की लागत से वायु प्रदूषण मानीटरिंग ऑनलाइन इलेक्ट्रॉनिक स्टेशन की स्थापना की है, जिससे न केवल हमें बल्कि केन्द्रीय व राज्य स्तर के प्रदूषण नियंत्रण बोर्ड को भी इस क्षेत्र के प्रदूषण-स्तर की जानकारी लगातार उपलब्ध होती रहती है।
3. संस्थान ने कारखाने के स्थापना स्थल तथा उसके समीप स्थित कुल 10 ग्रामों— अमिलिया खुर्द, गिरगिटा, बेलदरा, लखवार, परसोखा, पहाड़ी, पिपराकला, बंशीपुर, उमरी पैला, एवं तिघराकला को गोद लिया हुआ है और यहां आंगनवाड़ियों में सहायता से लेकर सामाजिक व जन सहयोग के अनेक कार्य संचालित हैं।
4. संस्थान ने जिला अस्पताल सतना में 10 लाख रुपये की सहायता से डायलिसिस सेंटर शुरू कराया है एवं वहां स्थित सेवा संकल्प प्रकल्प को एक एम्बुलेन्स (मारुति वेन) प्रदान की है। स्वास्थ्य-सहायता की इस मद में संस्थान ने कारखाने के समीप स्थित ग्रामों में स्वास्थ्य शिविरों का लगातार आयोजन किया है। इन शिविरों में मैहर सिविल अस्पताल से विशेषज्ञ चिकित्सक को आमंत्रित करते हैं एवं ग्रामीणों को मुफ्त चिकित्सा, जरूरी दवाओं का वितरण व दोपहर का भोजन दिया जाता है। प्रति शिविर का खर्च लगभग दो लाख रुपये होता है और पिछले दो साल से संस्थान की ओर से ऐसे 15 शिविर लगाए जा चुके हैं।
5. क्षेत्रीय जनता की मांग पर संस्थान ने इस वर्ष से पशु चिकित्सा शिविर भी लगाना आरंभ किया है और अब तक 8 पशु चिकित्सा शिविर लगाए जा चुके हैं। इन शिविरों में विकासखंड मैहर के पशु चिकित्सा विस्तार अधिकारी और उनका सहायक दल उपस्थित रहता है, शिविरों में पशुओं की बीमारी से संबंधित दवाएं मुफ्त वितरित की जाती हैं। प्रति शिविर का व्यय लगभग 1.25 लाख रुपये होता है।
6. केजेएस संस्थान के पास एक फायर टेन्डर तथा एक एम्बुलेन्स है जो हमेशा आसपास के ग्रामों की सेवा के लिए समर्पित है। जब भी किसी गांव या गांव के किसी व्यक्ति को फायर टेन्डर की आवश्यकता होती है, तो इसे तुरंत मुफ्त सेवा के तहत प्रदान किया जाता है। एम्बुलेन्स भी ग्रामीणों की मदद में रहती है। कई बार प्रशासनिक अधिकारियों के आदेश पर इसे परिवार नियोजन शिविरों व अन्य स्वास्थ्य शिविरों में मुफ्त लगाया जाता है।

7. संस्थान ने मैहर स्टेडियम के लिए तीन लाख रुपये की सहायता राशि, रामवन तीर्थ के लिए 5 लाख रुपये एवं उत्तराखंड आपदा हेतु 5 लाख 58 हजार रुपये पिछले दिनों सहायता में दिए हैं। मैहर में प्रतिवर्ष दो बार लगने वाले नवरात्रि मेले में संस्थान की ओर से लगातार नौ दिन सेवा पंडाल लगाया जाता है।

8. विगत जुलाई 2013 से तत्कालीन सतना कलेक्टर ने जिला कुपोषण के निवारण के लिए दोस पहल की और पोषण पुनर्वास केन्द्र सतना में एक पोषण बैंक शुरू किया था, इसमें गेहूँ, चावल, दाल व नमक की एक किट मरीज को प्रदान की जाती है। केजेएस संस्थान का यह सौभाग्य है कि इस पोषण बैंक की शुरुआत उसके द्वारा की गई सहायता से हुई और संस्थान इस मद में पाँच-पाँच लाख रुपये के खाद्यान की दो बार मदद कर चुका है और आगे भी हर संभव सहायता के लिए कटिबद्ध है।

9. इस गर्मी के मौसम में कंपनी परिसर के निकटतम ग्राम अमिलिया, लखवार, गिरगिटा में दो-दो टैंकर पानी की सप्लाई दिनांक 15-03-2016 से प्रतिदिन की जा रही है साथ ही साथ ग्राम पिपरहट में भी दिनांक 01-04-2016 से दो टैंकर पानी की आपूर्ति कंपनी के द्वारा प्रतिदिन की जा रही है।

10. दिनांक 04-05-2016 को कंपनी द्वारा ग्राम अमिलिया खुर्द में मेडिकल कैंप का आयोजन किया गया, जिसमें मैहर के वरिष्ठ चिकित्सक डा. व्ही.के. गौतम के निर्देशन में शिविर में आये 150 से 200 ग्रामवासियों का मेडिकल परिक्षण कर उचित चिकित्सकीय परामर्श के साथ मुफ्त दवाई एवं फलो का वितरण किया गया।

11. हमारे संस्थान द्वारा शासन द्वारा निर्देशित ग्राम लखनपुर में टमस नदी गहरीकरण का कार्य भी कराया जा रहा है जिसमें कुल खर्च रुपया तीन लाख अनुमानित है।
